Problem – Travel Planning is Complex

- Planning takes 15+ hours
- Scattered information
- Hard to personalize by budget/preferences
- “Planning paralysis” affects 47% of travelers

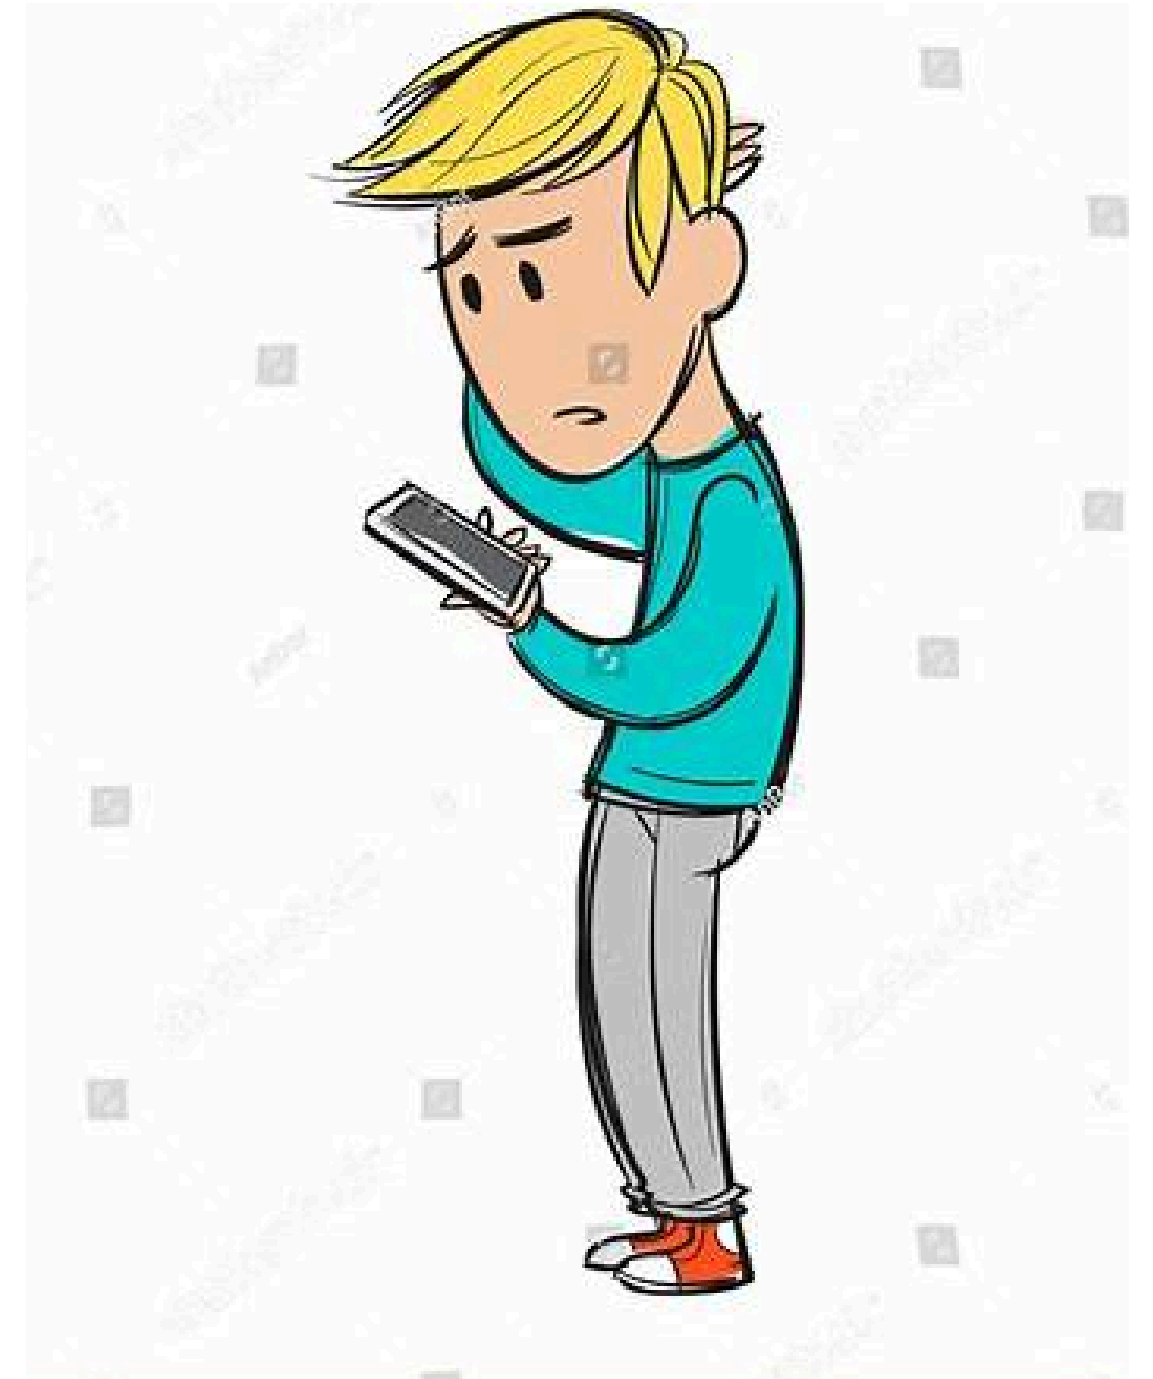

User Persona

Real-Life Problem: Scattered Travel Planning

- Amit wanted to book a trip to Goa with friends—flights, hotels, and local spots.
- But every feature was on a different app, making it confusing and time-consuming.

Our Solution: One App. Full Trip.

- With our AI-powered app, Amit enters his trip details once.
- The app suggests flights, hotels, itinerary, and even local recommendations—all in one place.

Solution: Introducing the AI Travel Genius

AI Generated Travel Planner

Instantly create personalized trips using natural language input.

Custom Travel Planner

Plan every detail your way with full control over your itinerary.

AI Generated Itinerary

Trips auto-update based on real-time weather, events, and prices.

All-in-One Booking

Book flights, hotels, and restaurants without leaving the app.

Social Community

Get inspired and share plans with fellow travelers.

Location Recommendation

Discover destinations tailored to your travel history and interests.

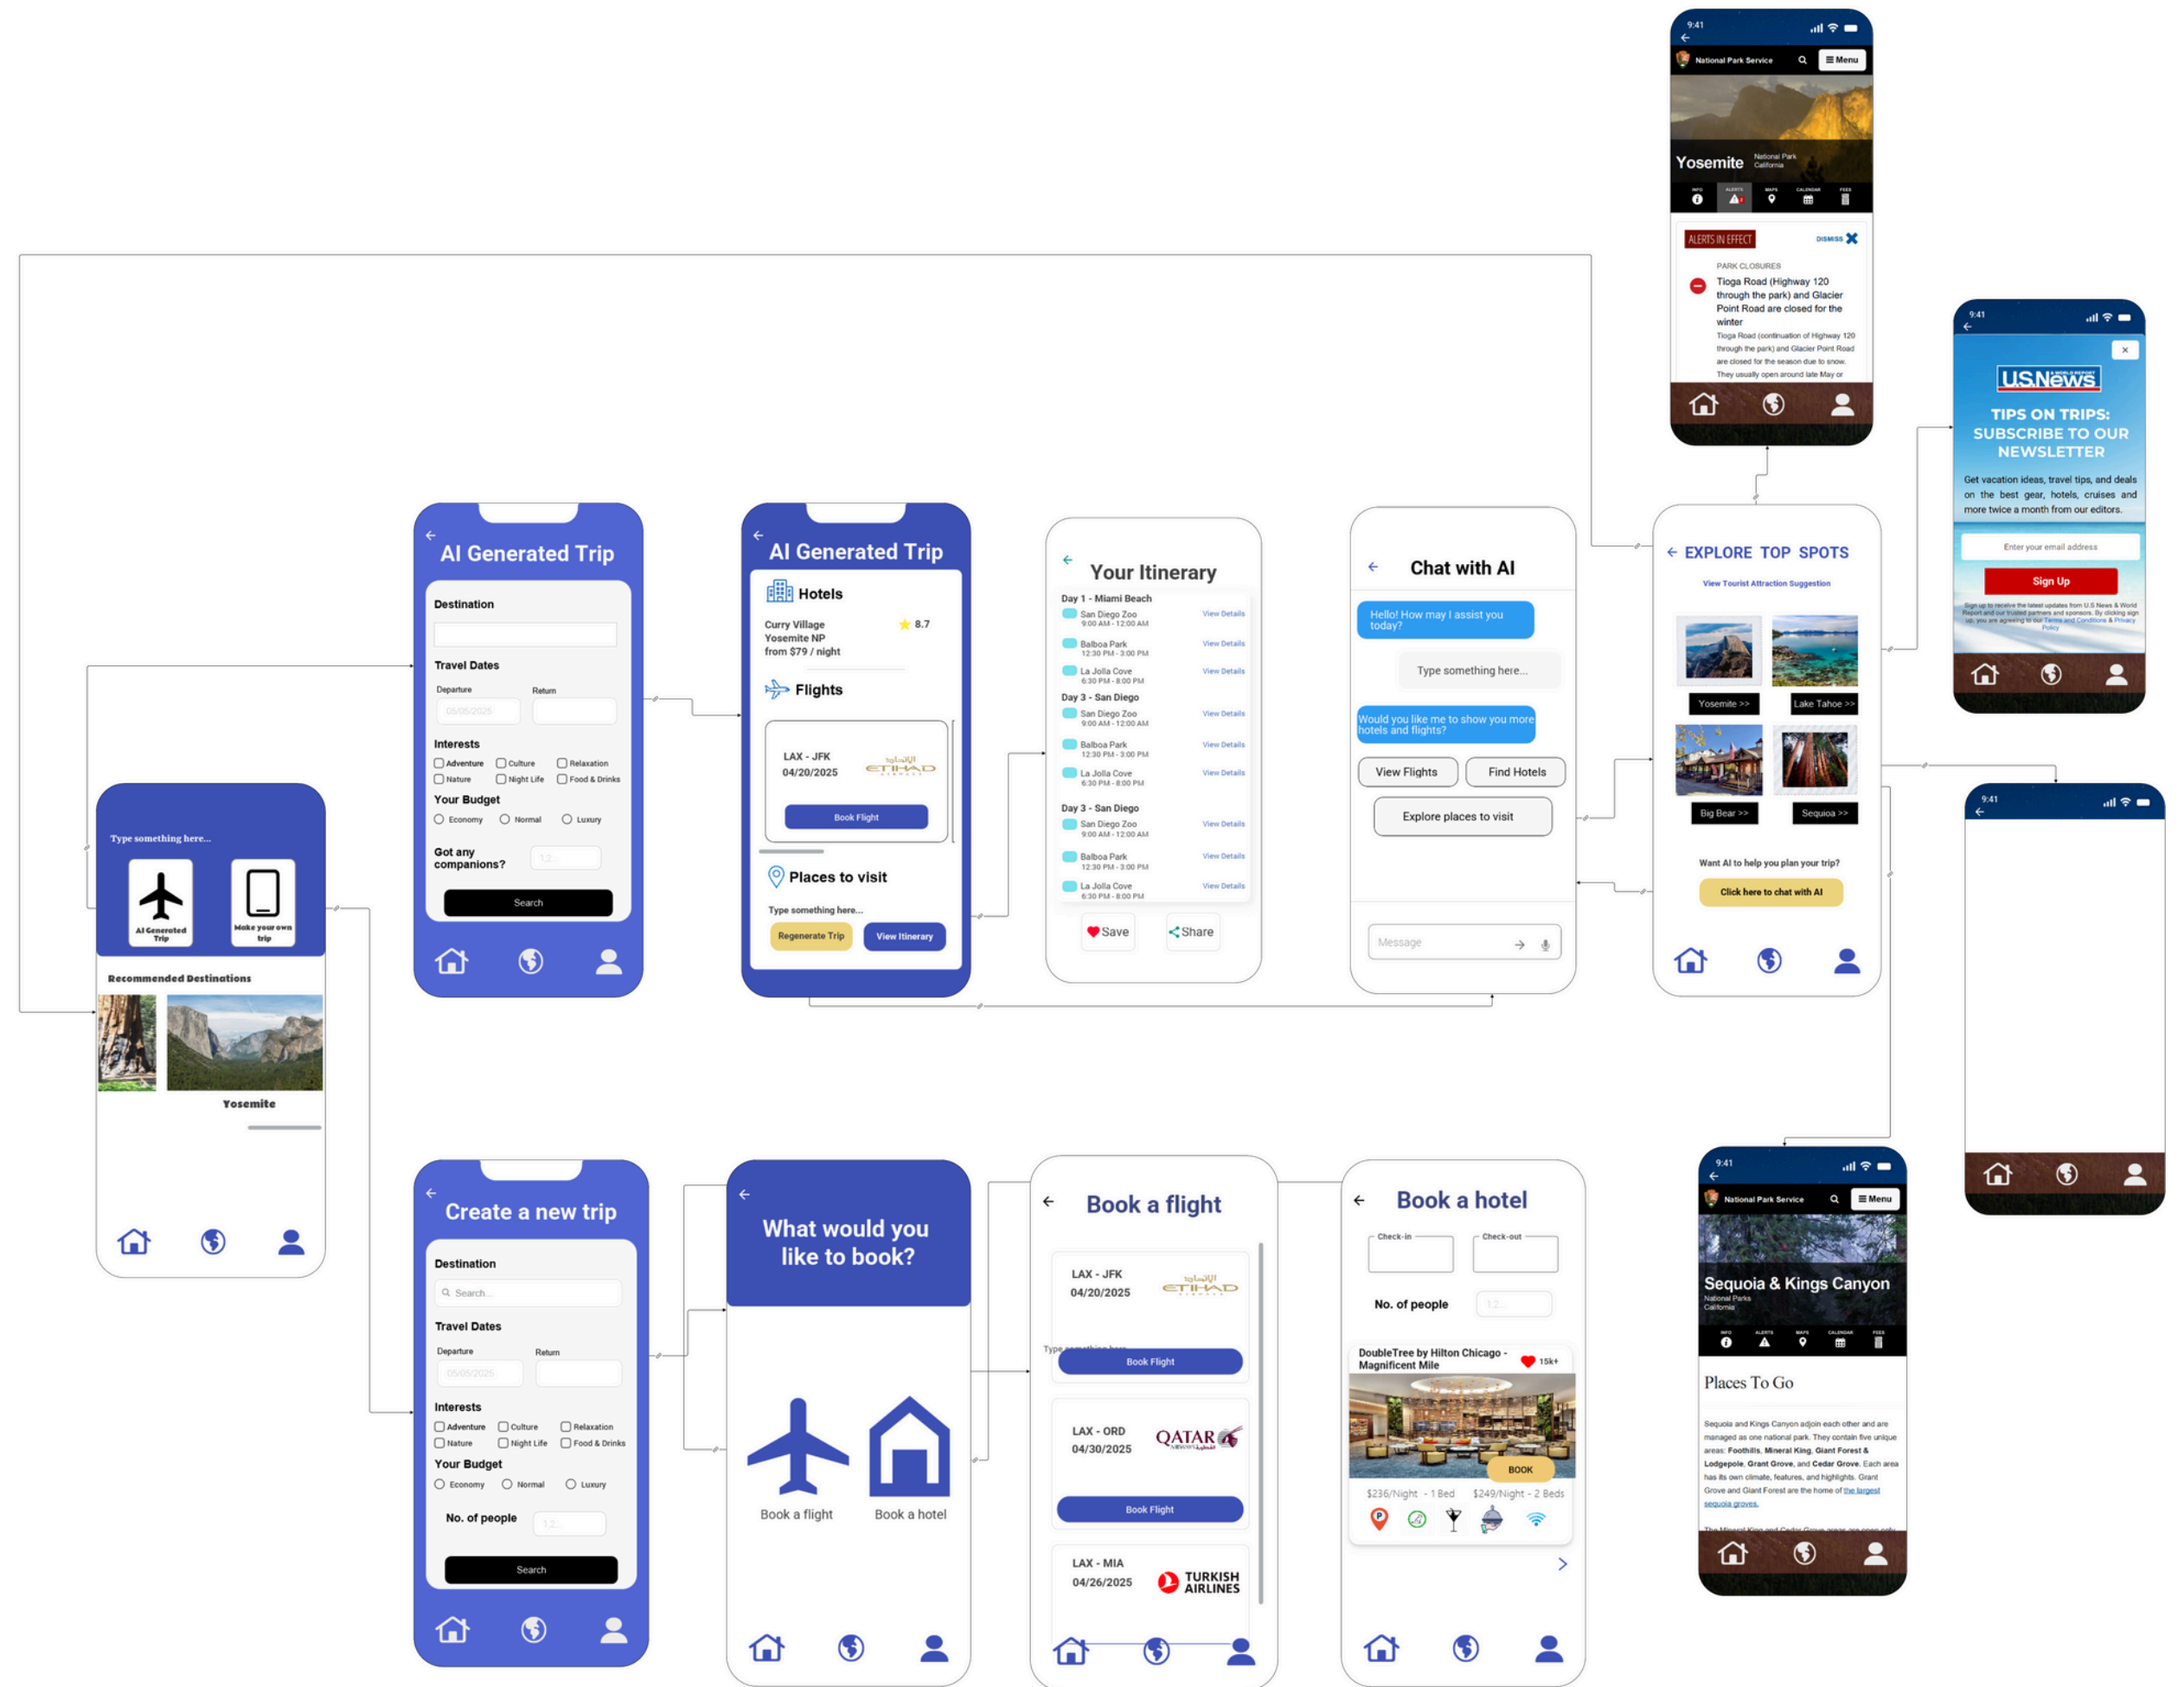

A Massive Industry, Still Stuck in the Past

- Travel planning overwhelms 47% of users
- AI in travel is projected to grow 20%+ annually (Statista, 2024)
- Travelers demand hyper-personalized recommendations
- Avg. user spends 10–20 hours planning a trip (American Express).

User Flow

DEMO

How We Use *AI & Technology* in Our Features

Personalized Recommendations

- We use content-based filtering to suggest locations
- It matches user interests with places having similar features

Hello Guest

What kind of traveller are you?

AI Generated Trip

- Customize your destination, dates, budget, interests, and travel companions in one simple form.
- Instant recommendations for flights and stays, optimized to match your preferences and budget.
- A complete day-by-day travel plan, auto-generated by AI and ready to save or share.

The form is titled "AI Generated Trip" and includes the following sections:

- Destination:** A text input field containing "Miami".
- Travel Dates:** Two input fields for "Departure" (04/26/2025) and "Return".
- Interests:** A grid of checkboxes for Adventure, Culture, Relaxation, Nature, Night Life, and Food & Drinks.
- Your Budget:** Radio buttons for Economy, Normal, and Luxury.
- Got any companions?:** A text input field containing "1,2...".
- Search:** A large black button at the bottom.

The bottom navigation bar features icons for Home, Search, and Profile.

The results page is titled "AI Generated Trip" and displays the following information:

- Hotels:** A card for "Curry Village Yosemite NP" with a 8.7 star rating and a price of "from \$79 / night".
- Flights:** A card showing "LAX - MIA 04/26/2025" with the Turkish Airlines logo and a "Book Flight" button.
- Places to visit:** A card for "Miami" with a "View Itinerary" button.

The bottom navigation bar features icons for Home, Search, and Profile.

The "Your Itinerary" screen shows a detailed day-by-day travel plan:

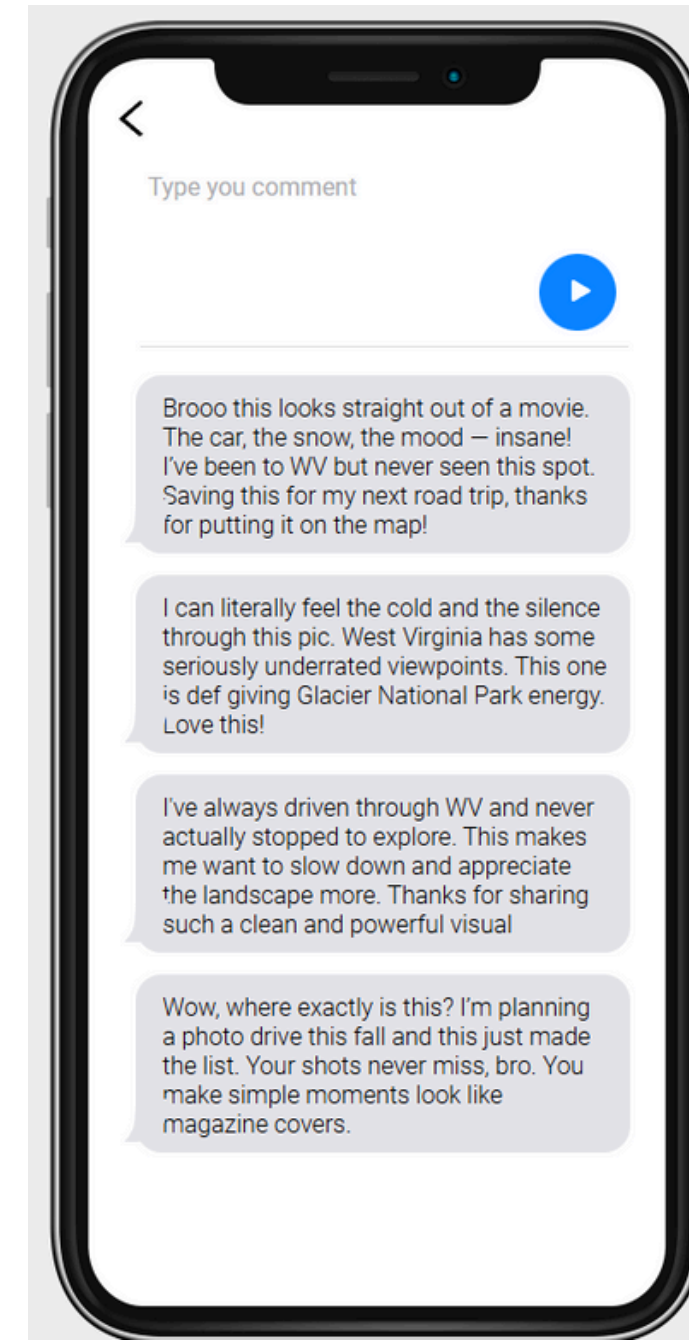

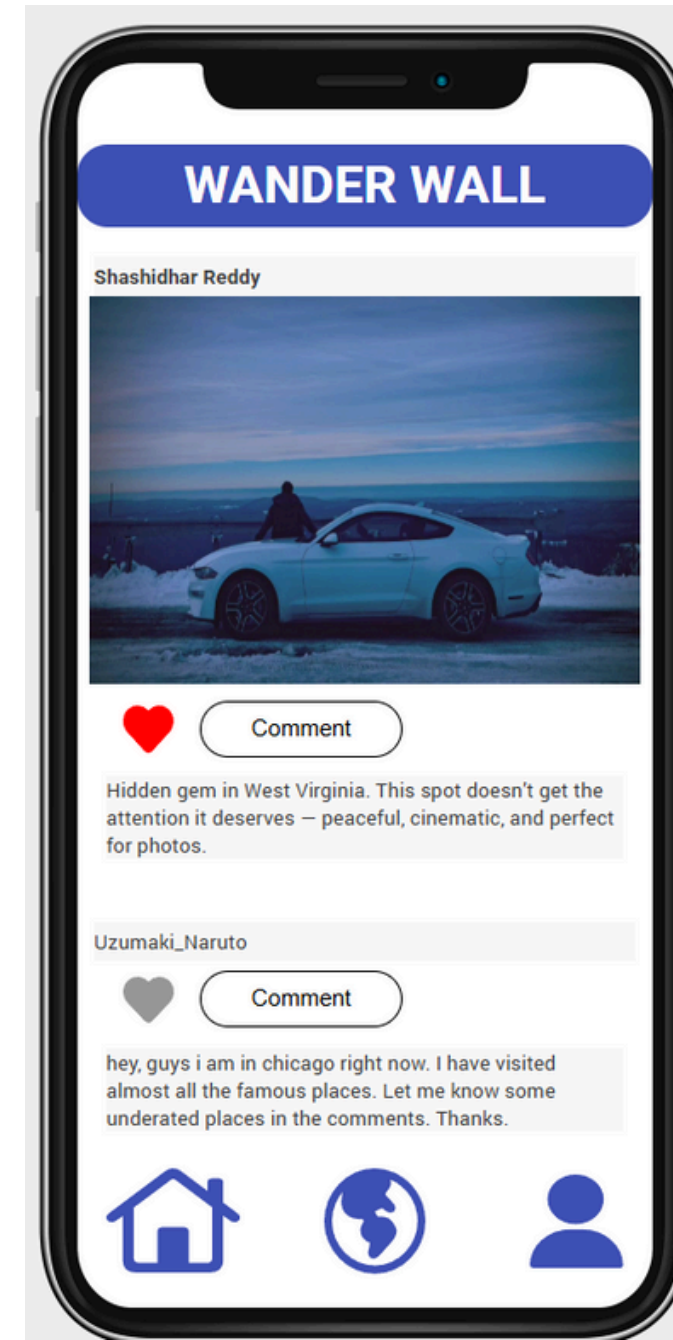

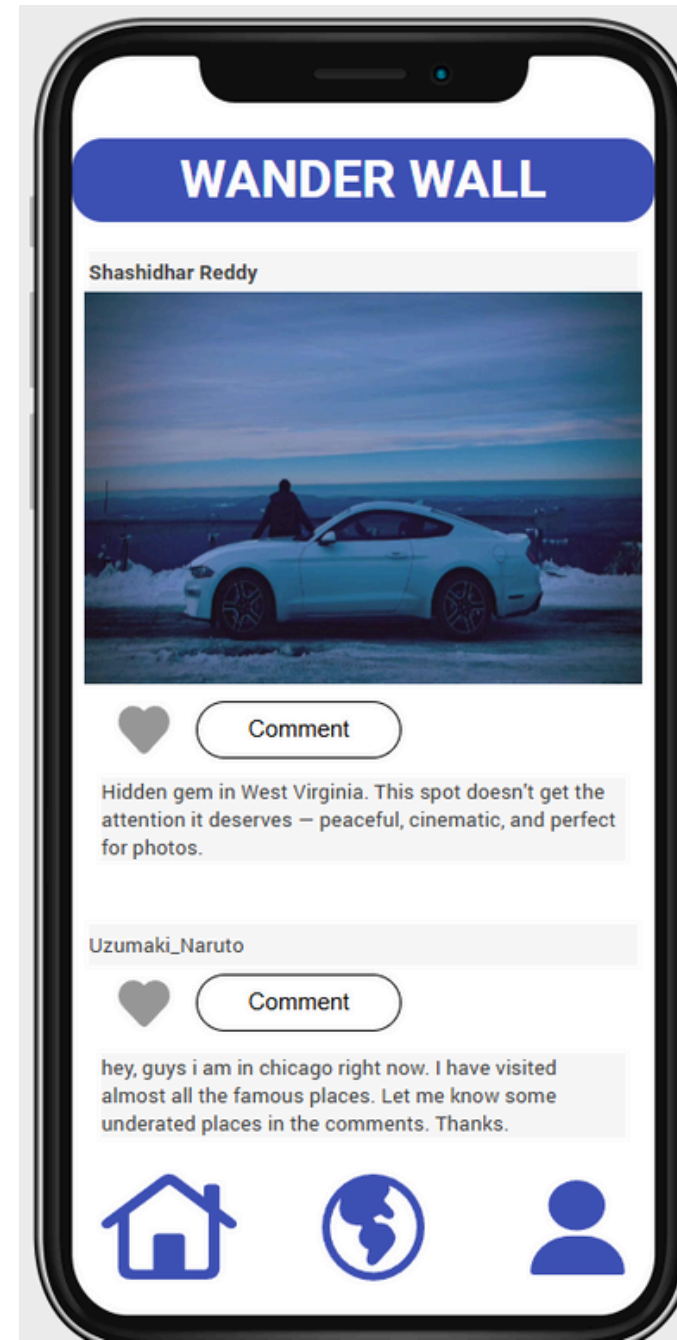

- Day 1 - Miami Beach:**
 - San Diego Zoo (9:00 AM - 12:00 AM) - View Details
 - Balboa Park (12:30 PM - 3:00 PM) - View Details
 - La Jolla Cove (6:30 PM - 8:00 PM) - View Details
- Day 3 - San Diego:**
 - San Diego Zoo (9:00 AM - 12:00 AM) - View Details
 - Balboa Park (12:30 PM - 3:00 PM) - View Details
 - La Jolla Cove (6:30 PM - 8:00 PM) - View Details

At the bottom, there are "Save" and "Share" buttons.

Social Community Insights

- Users share travel photos and reviews that inspire others.
- We track post engagement to surface trending destinations.

Why this product matters?

- Saves hours of planning time
- Makes travel accessible to non-planners
- **Potential for monetization via:**
 - Premium features
 - Affiliate bookings (hotels, tours)
 - Ad-based revenue from partners

Future Scope

1 Voice-Based Trip Planning

Plan entire trips using voice commands for a hands-free experience.

2 Memory-Driven Personalization

AI remembers your past travel patterns, preferences, and favorite experiences to refine future recommendations.

3 Group Travel Coordination

Easily plan and sync itineraries with friends, family, or teams.

4 AR/VR Destination Previews

Virtually explore destinations before booking to make smarter, more immersive choices.
